SUBJECT   : DCI Discussion/Dinner on "The Intelligence Role
                  in Arms Control Verification and Monitoring,
                  Thursday, 7 December 1978

    1. On Admiral Turner's behalf you are invited to participate in
a Discussion/Dinner on the above subject in the DCI Conference Room on
the date and time appointed. Our discussion will draw heavily on our
experience with SALT I. Nevertheless, it is not intended that we
should become entangled in the pros and cons of a SALT II agreement
but rather that we shall rove widely over the subject of arms control
verification, emphasizing the conceptual aspects of the problem. To
facilitate a free discussion all present will have SI (code-word)
clearances.

    2. The following have been invited from outside and have accepted
our invitation:

        Professor Joseph I. Coffey, Director, Center for Arms Control
            and International Security Studies, University of Pittsburgh

        Paul H. Nitze, Systems Planning Corporation

        William J. Perry, Under Secretary of Defense for Research
            and Engineering

        Professor Jack P. Ruina, Massachusetts Institute of Technology

        Marshall Shulman, Ambassador at Large, Department of State

        Lt. Gen. George M. Seignious, II, Arms Control & Disarmament Agency

    3. Sid Graybeal will start our discussion. Attached are some topics
